OLIVE SKIN

"In the winter, olive skin tends to look sallow because it has yellow undertones," says Phillip. "Apricot blush, which has both yellow and pink pigments, blends with the skin while warming it up like Eva's."

Three Custom Color Morning After Blush, \$23, threecustom.com

Actresses like Diane Kruger and Eva Longoria Parker don't let a little cold weather make them look dull and drab. Instead, they create a just-in-from-the-cold-air flush to stay fresh-faced through winter. "Swirling blush on just the apples of the cheeks looks the most natural because that's where blood rushes when it's chilly outside," says Dex Phillip, makeup artist and founder of Dex New York. "Plus, it makes cheeks appear lifted, plumped and more youthful."
